What to Make for Baby

57 DESIGNS IN KNITTING AND CROCHET

Dedicated to Everyone who Loves a Baby

PART ONE

By ELLA ALLAN

FOREWORD

Every mother loves her little one to look its best, therefore, it is essential there should be a special book devoted to the all-important baby. Although the original of this book is even more popular than ever, the cry is always for extra and newer designs.

Every article included in this edition has been entirely remade and improved, it being impossible to discard those which are still such great favourites. With the present arrangement of illustrations, it has been possible to add several new patterns besides those which replace those I have discarded.

Having made and used every article, I know that each garment will fit well, give satisfaction to the worker, and make the babies look their prettiest. The finished garments will be even more attractive than the photographs make them appear. In the majority of cases the patterns are entirely original.

ELLA ALLAN.

EXPLANATION OF CROCHET STITCHES

Chain —Make a slip knot on needle, draw thread through this loop. Draw wool through second loop and continue for whatever length of chain is required.

Single Crochet—Put hook through work at stitch indicated in directions; draw thread through work and through loop on needle at same time. This is sometimes called Slip Stitch.

Double Crochet—Put hook through work, thread over hook and draw through, making two loops on needle; thread over again and draw through both loops.

Treble—Thread over the needle; hook through work; thread over and draw through, making three loops on needle; thread over, draw through two loops; thread over again and draw through remaining two.

Double Treble—Thread over hook twice; hook through work, thread over and draw through, making four loops on needle; thread over and draw through two loops, then the second two, and lastly the remaining two.

Long Treble—Thread over hook three times; hook through work; thread over and draw through, making five loops on needle; thread over and draw through two at a time.

Picot—A Picot stitch is made by working 4 chain, then making a double crochet in the fourth chain from needle.

Star Stitch—On a given number of chain pick up four in addition to the loop on needle, thus making five stitches; draw wool through all five together; then make one chain. For next star draw thread through the hole under the one chain; then through the back thread of former star and pick up two more chain and draw through all five loops together. In second row—make three chain to commence. Pick up the second and third of these, then the back thread on top of star below, and lastly draw thread through eye of star below, and draw wool through all five loops together; 1 chain, and proceed as before.

*is used to indicate repetition of preceding instructions.

Balls for finishing off cords at waist, etc. Work 4 chain and join into a ring, into which put 14 treble (3 chain to begin counts as first treble), then make 1 double crochet into each alternate treble (this will draw it almost close up). Break off end of thread, and sew on to end of cord.
